

OWN DAMAGE (CASCO) WARRANTY

In Sweden all cars are sold with a warranty covering casco (Swe: "vagnskadegaranti"). The coverage is included in the purchase price of the vehicle and the warranty is valid for 36 months from first date of registration.

The warranty covers (casco) damages to your vehicle that are e.g. caused by a one- or two-sided collision, animal collision or vandalism. The deductible is never set by LeasePlan but by the manufacturer (see [here](#) for more information).

In order for the warranty company to accept your claim, it often has to be reported within 30 days from date of accident.

Note that a damage is easily reported [here](#) and LeasePlan strongly recommends that you report your claim as soon as possible after occurrence
